

What is Locat'us?

The latest and most advanced vehicle security and remote start solution, Locat'us is a cell phone-based vehicle communication system. The Locat'us telematics module integrates cellular and GPS tracking to provide the user with a cell phone remote commander for security, remote start and GPS tracking from anywhere in the world.

Locat'us can either be installed as a integrated system with any compatible remote start and/or security system by Auto Page, or installed to operate the Factory O.E.M. keyless entry and security system. Your dealer can help you decide which features are most important to you. Auto Page has a complete line of compatible solutions that will fit your vehicle security or remote start needs, all controlled through an intuitive interface on your cellular phone or internet connected computer.
